

HE KNEW THE ANSWER

"You promised that you would give me my answer this evening," he said. "Are you ready to do so?"

"Yes," she replied, "but I want you to promise me something first."

"What is it?"

"I want you to promise me solemnly that you will not do anything rash—that you will not, when I have given you my answer, go and drown yourself or take bichloride of mercury."

"Oh, then you have decided to say yes, have you?"

PERSONAL POINT OF VIEW

"Adam," said Eve, as they were on their way out of the garden, "do you think women ought to study politics?"

"Yes," replied Adam. "After our experience I am inclined to favor anything that will keep their minds off horticulture."

SHE ANSWERED, YES

"Do you know the nature of an oath, madam?"

"Well, I ought to, sir. We have just moved and my husband has been laying carpets."

AIN'T NATURE WONDERFUL!

Hot Weather

Hot weather usually comes in the United States in the summer time!

This is the time of year one can forget about the price of coal and it's raised at this time of the year for that reason.

People wouldn't mind hot weather if it wasn't for the heat.

Neither would they mind the heat so much if it wasn't for weather reports, red brick buildings, stiff collars, working, corns, eating, sleeping and living.

Hot weather is accountable for people doing many foolish things. Weddings flourish during this period. The funny part of it is, everybody blames it on the weather man.
